FlowMitra

FLOWMITRA FOR

Construction & contractors

Site updates with photos, not phone calls.

THE EVERYDAY PROBLEM

Site engineers report by phone, material arrives without a proper check, and the office learns about delays late.

EXAMPLE FLOW — MATERIAL REQUEST

Material request from site → Approval (owner) → Purchase → Received at site (challan photo) → Store entry → Bill match

EXAMPLE DAILY CHECKLISTS

- Site safety check — daily
- Progress photos — daily
- Equipment and tools check — weekly
- Licence and insurance renewals — yearly

WHAT CHANGES

Approval steps keep spending in your hands. Each site has a clear owner, a time limit and a photo trail.

Every step has a photo
Nothing is marked done without proof.
