FlowMitra

FLOWMITRA FOR

Factories & workshops

Store, production, quality and dispatch in one chain.

THE EVERYDAY PROBLEM

Jobs wait between departments, quality checks are verbal, and nobody can say where a lot is right now.

EXAMPLE FLOW — PRODUCTION LOT

Raw material in → Quality check (approve / reject) → Production → Final inspection → Packing → Dispatch

EXAMPLE DAILY CHECKLISTS

- Machine cleaning — daily
- Lubrication and maintenance — every N days
- Safety and fire-extinguisher check — monthly

WHAT CHANGES

A rejected quality check sends the job back with the reason. Repeating maintenance is never forgotten.

Good to know: Best for single-shift factories today. Multi-shift rosters are not part of the app yet.

Every step has a photo
Nothing is marked done without proof.

WhatsApp alerts
New work, one overdue alert, morning and evening summary.

Fair staff scores
Lateness counts only working time.
